

## OCTOBER CTA

**InTouch Health 10/24/2018**

Title: How can we tell if Telehealth Measures Up?

Presenter: Dr. Elizabeth Krupinski [ekrupin@emory.edu](mailto:ekrupin@emory.edu)

Goals

1. Understand the importance of assessment
2. Differentiate between assessment & scientific experiments
3. Appreciate the variety of approaches & topics
4. Know where to look for resources
5. Set Assessment priorities

*Dr. Elizabeth Krupinski is a Professor and Vice Chair for Research at Emory University's Department of Radiology and Imaging Sciences. She is an Experimental Psychologist with research interests in medical image perception, observer performance, medical decision making, and human factors as they pertain to radiology and telemedicine. The goal of her research is to improve our understanding of the perceptual and cognitive mechanisms underlying the interpretation of medical images in order to reduce errors, improve training, and optimize the reading environment, thereby improving patient care and outcomes.*

Title: Telehealth Reimbursement and ROI: 2018 Survey Findings

Presenter: Andrew Saluke [asaluke@intouchhealth.com](mailto:asaluke@intouchhealth.com)

Goals

1. Learn about the top drivers of telehealth ROI
2. Examine current trends in telehealth reimbursement
3. Learn how providers are billing facility and professional service fees

*Andrew Saluke is a product marketing manager for behavioral health at InTouch. Andrew joined InTouch when it acquired REACH Health, where Andrew was a senior marketing manager. Andrew has studied successful telemedicine programs across the U.S.*
